Re: Hathaway Condos, Spa & Golf Resort  
Cortland, New York

Dear Brig,

This letter is my attempt to put in plain words the unreserved excitement that RBA holds for your vision regarding the Hathaway Condo, Golf and Spa Resort. Our recent dialogues have kept our minds whirling about all of the innovative elements of this inspired venture. The innovative use of lightweight concrete applications and "green" building systems mesh well with RBA's vision regarding sustainable design and is a very integral piece of the entire puzzle. We look forward with enthusiasm to being a part of the selected team to make this vision a reality.

Each and every member of our project team and our firm expresses an immense amount of anticipation regarding this project and cannot wait for the day we begin our venture.

Best regards,

A handwritten signature in black ink, appearing to read "Chris Byers", enclosed in a white rectangular box.
